FREE FOR EVERY FAMILY

FOR PARENTS, CAREGIVERS & PROVIDERS

Project Early Learning

Free parent training for families of young children

PROJECT EARLY LEARNING

Free, live, expert-led parent training for families of young children, built for the wait between first concerns and first services. No cost, no referral, and no diagnosis needed. Sessions teach practical, same-day skills for understanding behavior and communication, grounded in applied behavior analysis. Every session is live on Zoom and recorded, so you can join when it works for you.

LED BY A BOARD CERTIFIED BEHAVIOR ANALYST

270+ families
trained since our July 2026 launch

15 professionals
early childhood providers who have trained alongside families

Ages 2+
for every child and parent, with a diagnosis or without one

Always free
live on Zoom, every session recorded

Free live parent trainings

1. **Behavior:** why kids do what they do and how to build skills
2. **Communication:** what they're telling you and how to help them say it
3. **Tantrums and Meltdowns:** what the behavior is asking for
4. **Play and Social Skills:** how to play with your child

Plus special topics like Potty Training, with time for your questions in every session.

- Wed, Dec 9 · 6:00 PM

Can't make it live? Recordings are free anytime at **projectearlylearning.com**.

A RESEARCH STUDY · UNIVERSITY OF CENTRAL FLORIDA

Project Early Warning

Help make early autism screening faster

A UCF study using parents' own descriptions of their child to build faster, easier screening tools for families waiting on an evaluation. One conversation about your child helps the next family wait less.

WHO CAN TAKE PART

- Primary caregiver of a child age 2 to 4
- Child is on a waitlist for an autism evaluation, or you have noticed developmental concerns
- Primary language is English

WHAT'S INVOLVED

- A short online screening questionnaire
- One online Zoom interview, about 25 minutes
- Confidential, voluntary, and IRB approved (STUDY00008982)

Not on a waitlist? Families of any child age 2 to 4 can also join a shorter parent interview that helps us improve the trainings. Ask at hello@projectearlylearning.com. Principal Investigator: Joshua Levins, JoshLevins@ucf.edu.

See if your family qualifies

Scan the code to take the two-minute eligibility survey.
